Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/528,297	Applicant(s) RIBI, GUIDO	
	Examiner CHRISTOPHER B. MCKINLEY	Art Unit 3781	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 13, 17-19 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by McBride et al. (5,356,021). McBride et al. disclose the limitations of the claims including a device (figs. 1-8) comprising capsule (10) having closed bottom (18) and open end (end opposite 18), diaphragm (14) having inner (circular inner portion) and outer (bent annular portion) portions, intermediate position (fig. 2), wherein said diaphragm is stretched (fig. 3), inner diameter (diameter of inner portion), plastic (Abstract), a sealing element (12) physically attached to said closed bottom, retaining shoulders (fig. 1, inherent with pilfer band 26 and threads) and a tear-off line (serrated connection of pilfer band 26 and capsule).

3. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Traub (5,927,532). Traub discloses the limitations of the claims including a device (figs. 1-3) comprising capsule (10) having closed bottom (30) and open end (end opposite 30 and axially upwards to flange 26), diaphragm (14) having inner (circular inner portion) and outer (44) portions, wherein said outer portion is fixed to a perimeter of the open end (fig. 2) at a flange (26).

Response to Arguments

4. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection. Claims 1-43 are not pending in the application as claims 33-43 have been canceled and claim 32 does not exist.

Conclusion

5. This is a continuation of applicant's earlier Application No. 11/528,297. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

6. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Art Unit: 3781

7. Applicant is duly reminded that a complete response must satisfy the requirements of 37 C.F. R. 1.111, including: "The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references. A general allegation that the claims "define a patentable invention" without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section. Moreover, "The prompt development of a clear Issue requires that the replies of the applicant meet the objections to and rejections of the claims." Applicant should also specifically point out the support for any amendments made to the disclosure. See MPEP 2163.06 and MPEP 714.02. The "disclosure" includes the claims, the specification and the drawings.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher B. McKinley whose telephone number is (571) 272-3370. The examiner can normally be reached on Monday-Thursday, 7:00 AM - 5:30 PM.

9. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony Stashick can be reached on (571) 272-4561. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
